# Policies and Informed Consent for Counseling

Chris Williams

Anchored Hope

This document contains important information about my professional services and business practices. The purpose is to help you make an informed decision about participating in treatment. I ask you to read this carefully and discuss with me any questions that you may have.

## The Process of Therapy

Participation in therapy can result in a number of benefits to you, including improving interpersonal and spiritual relationships and resolution of specific concerns or symptoms that led you to seek therapy. Although there are no promises or guarantees of what you will experience or what benefits you will receive, counseling has been shown to improve and deepen intimacy in relationships, provide solutions to specific problems and reduce feelings of distress. A part of this experience can also be an increased awareness of feelings like hurt, sadness, frustration, guilt, and other feelings or memories of unpleasant events. Your counselor will help you process your important experiences and emotions. Your counseling is most likely to be beneficial through your active involvement, sincere honesty and your commitment to working on the important relationships in your life. Working toward progress, growth and healing requires a collaborative effort on your part both within and outside of sessions.

## Specifics About My Practice

I am a private practitioner and hold no formal or legal association to the other practitioners providing behavioral health services in another city. I am licensed with the State of Texas, Board of Examiners of Licensed Professional Counselors to practice independently as a Licensed Professional Counselor (LPC). I have an MA degree in Professional Counseling from Texas State University, accredited by the Council of Accreditation of Counseling and Related Educational Programs (CACREP).

I counsel using an integrative approach of varying counseling techniques. I view clients from an Adlerian perspective, which means I will look at various areas of your life to help you get a better understanding of how you are engaging the world, how you see yourself in it, and where you'd like to be in it. By talking about your family of origin and memories you hold from childhood, as well as what current situation you find yourself in, I hope to develop what patterns you may have in your life, both good and bad, and how we can utilize or eliminate them to help you gain a place in life that is rewarding for you.

I am trained in Eye Movement Desensitization Reprocessing, (EMDR) from the EMDR International Association. I am also trained in Intimacy Therapy (a Christian counseling model developed by Dr. David Ferguson that helps people heal and grow in the context of relationships). I utilize experiential techniques from the Life Model, created by Dr. Jim Wilder that uses a neurotheological perspective as well as Attachment theory concepts. I am also trained in Level 1 Gottman theory for couples. My license is registered under my formal name: Christine Michelle Williams.

\_\_\_\_\_ *(please initial)*

**Payment & Insurance**

Sometimes medical insurance may be applied to the cost of professional counseling. Anchored Hope is considered in-network for BCBS and Aetna insurance and other insurance companies may be added to that. For out-of-network insurance, Anchored Hope does not file claims for clients. Clients should call their own insurance company to see if they will pay reimbursement for out-of-network psychotherapy and what the procedure is for the client to file. Your health insurance carrier or HMO/PPO/MCO/EAP may require the disclosure of confidential information in order to process your claims. Only information required for billing and authorization will be disclosed by Anchored Hope. This does, however, require disclosure of diagnostic codes and CPT procedure codes. Counselors will provide the client with these necessary codes to assist them in filing insurance claims. Out-of-network clients pay Anchored Hope in full and they receive a Statement of Services that includes all necessary information so that they can submit to their insurance company for reimbursement. Anchored Hope cannot guarantee insurance reimbursement and it is the responsibility of the client to call their insurance company prior to future counseling appointments.

**CONFIDENTIALITY:**

In most cases (see “Exceptions to Confidentiality” below) communications between client and therapist will be held in strict confidence - unless you provide your therapist written permission to release information about your treatment. If you participate in couples or family therapy, the therapist will not disclose confidential information about treatment to a third party (other than to a third-party payer) unless all treatment participants (18 or older) provide written authorization to release such information.

**Exceptions to Confidentiality**

Therapists are legally-mandated to report all known or suspected instances of child abuse, dependent adult abuse and elder abuse to the appropriate authorities. Therapists are also required to notify the police as well as intended victim if it is determined that a client presents a serious danger of physical violence to another person. A therapist may break confidentiality when she believes a client is likely to be dangerous to him or herself.

**Consultation:** I consult regularly with other professionals regarding my clients; however, my client’s identity remains completely anonymous, and confidentiality is fully maintained.

**In my absence:** At times, I may need to reveal your name and phone number to particular therapists covering my practice in my absence.

**E - Mails, Cell Phones, Computers and Faxes:**

Individuals may choose to contact me via email, fax or cell phone. In doing so, they agree to the understanding that email, fax and cell phone communication are not guaranteed confidential methods of communication, and they are, by choice, relinquishing their rights of confidentiality.
